Application for Senior Cloud Infrastructure Engineer (Ref. #2026-ENG)

Dear Hiring Team,

I am writing to express my enthusiastic interest in the Senior Cloud Infrastructure Engineer position currently open at Acme International. With over six years of hands-on experience designing, containerizing, and orchestrating scalable distributed architectures, I am eager to contribute to your engineering organization.

In my current role at TechCorp Solutions, I led the platform migration that shifted our central services into a fully automated Kubernetes environment. This initiative reduced provisioning times from days to minutes while driving down monthly infrastructure costs by 22%.

I look forward to discussing how my background in distributed systems and platform reliability aligns with your upcoming roadmaps. Thank you for your time and consideration.

Sincerely,

Rome, September 28, 2026

Alex Morgan, M.Sc.

Date of birth: 15/04/1994 | Gender: Non-binary | Nationality: Italian, Irish

WORK EXPERIENCE

Senior Full-Stack Engineer

TechCorp Solutions Ltd. | [techcorp.example.com](#)
📅 03/2022 – Present | 📍 Milan, Italy | Sector: Information Technology & Cloud Services

- Led the architectural migration of legacy monolith to microservices using Go and Kubernetes, reducing latency by 35%.
- Mentored 6 junior and mid-level developers, establishing CI/CD automation pipelines and test-driven development practices.
- Spearheaded GDPR and SOC2 compliance across core user authentication services.

Software Developer

InnoSoft Studio | [innosoft.example.it](#)
📅 09/2019 – 02/2022 | 📍 Rome, Italy

Developed and maintained high-throughput REST APIs and GraphQL endpoints for client-facing financial dashboards. Collaborated directly with UI/UX designers to implement pixel-perfect responsive web components in React and TypeScript.

EDUCATION AND TRAINING

Master of Science in Computer Science

Sapienza University of Rome
📅 2017 – 2019 | 📍 Rome, Italy | 🎓 [Verify credential](#)
📄 110/110 Cum Laude | EQF level 7

Thesis: *"Distributed Consensus Algorithms in High-Latency Mesh Networks".*
Specialized in Distributed Systems, Cryptography, and Advanced Algorithm Design.

Bachelor of Science in Computer Engineering

University of Naples Federico II
📅 2014 – 2017 | 📍 Naples, Italy
📄 108/110 | EQF level 6

Core coursework in Computer Architecture, Operating Systems, Database Management, and Mathematics.

LANGUAGE SKILLS

Mother tongue(s): Italian

	Understanding		Speaking		Writing
	🔊 Listening	📖 Reading	🗣️ Spoken production	🗣️ Spoken interaction
